DETAILED ACTION

Allowable Subject Matter

1. Regarding office action response dated 07/09/10 claims 18-22, and 24-38 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicants disclose a wireless data communication method and device that communicates between a transmitting device having a first wide band antenna for transmitting ultra wide band coded data signals and a receiving device receiving such signal. In the receiver device applicants do an operation of adding the N windows in a coherent manner before data demodulation so that added pulse amplitude level is higher than noise amplitude level captured by the receiver device. Further, applicants calculate several absolute value maximum amplitude values for signals in time sub-windows of a defined length and each sub-window is time shifted a determined time interval. These two features are not taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
